

Video Verification

What you will need

The latest version of the Dia app and an activated qualified electronic signature of CEO or authorised person

Physical documents (ID Card/ foreign biometric passport) that have been added to the Dia app

A room with sufficient lighting and a stable internet connection, with no third parties present and no unnecessary background noise

Phone number of the Ukrainian operator

Necessary devices

You need **two devices** for the video verification process:

- a smartphone with your phone number of the Ukrainian operator and the installed Dia app
- a laptop/PC, tablet or smartphone with camera for a video call

Make sure that the camera of your device has sufficient resolution to enable photo capture of your documents during the video call

Install the Microsoft Teams App

If your second device is a tablet or smartphone, download the free Microsoft Teams application from [Google Play](#) or the [App Store](#) and log in

For a laptop/PC, installing the application is optional
